EBERLE'S SEEDS

1942

FREDERICK W. EBERLE
ALBANY, NEW YORK

Eberle's Wholesale Price-List

For Market Gardeners and Florists Only

CHOICE VEGETABLE AND FLOWER SEEDS

How to Order by Mail

NAME AND ADDRESS SHOULD ALWAYS BE GIVEN. Frequently, orders are received when the sender has failed to give his name, or the Post-Office address has been omitted; hence, for this reason, the order cannot be filled. Please use the order sheet and envelope enclosed with this list, giving your name, full Post-Office address, and how you wish the order sent: by Parcel Post, Express, or Freight. Be sure to give your nearest Express Office or Railroad Station, where it is different from your Post-Office address. Duplicate order sheets and envelopes will be sent on request.

HOW TO SEND MONEY. Remittances may be made by **Money Order, Draft, or Check.** If cash or stamps are sent, be sure to register the letter.

ALL GOODS IN THIS LIST are offered subject to being unsold on receipt of order, and the prices quoted are subject to change without notice.

ALL ADVANCE ORDERS for growing crops are booked by us subject to crops permitting. In the event of unforeseen disasters to our growing crops or warehouses, should shortage necessitate it, we reserve the right to fill such orders *pro rata*.

TERMS. All goods sold to regular customers or parties of approved credit are due and payable June 1, 1942, without regard to date of purchase. All goods purchased after June 1 will be due and payable 30 days from date of invoice. F. O. B. Albany. Bags at cost.

NON-WARRANTY. Complaints made that seeds are not good should quite as often be attributed to causes other than to the quality of the seeds. There are hundreds of contingencies continually arising to prevent the best seeds always giving satisfaction, such as sowing too deep, too shallow, in too wet or too dry soil; insects of all descriptions destroying the plants as soon as, or before, they appear; wet weather, cold weather, frosts, chemical changes in the seeds induced by temperature, etc. For the above reasons it is impracticable to guarantee seeds under all circumstances, therefore FREDERICK W. EBERLE gives no warranty, express or implied, as to description, quality, productiveness, or any other matter of any seeds, bulbs or plants he sells, and he will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned. When mentioned, purity and germination tests are for information only and without guarantee.

Eberle's Vegetable Seeds

ARTICHOKE

LARGE GREEN GLOBE. The flower-heads or buds are thick and fleshy, very tender and delicious.

Oz.	$\frac{1}{4}$ lb.	1 lb.
\$0 55	\$1 60	\$5 00

ASPARAGUS

SUGAR BEET

VILMORIN'S IMPROVED. Standard variety for poultry and stock-feeding	55	1 65	1 55	1 50
--	----	------	------	------

MANGEL WURZEL

GOLDEN TANKARD. Large, oval-shaped roots. Flesh yellow, zoned white when thoroughly matured	40	1 15	1 05	1 00
NORBITON GIANT LONG RED. One of the most productive sorts	40	1 15	1 05	1 00

BORAGE

Largely used as pot herb	Sold Out
------------------------------------	----------

BROCCOLI *4 ounces per acre*

	Oz.	$\frac{1}{4}$ lb.	1 lb.
BRONZINO. A very hardy variety producing large, firm heads, some of which are purple while others are dark yellow. Very fine flavor	\$0 90	\$2 75	\$10 00
BRONZINO PURPLE. Heads purple, very large and compact, of fine quality	90	2 75	10 00
CALABRESE. (Special.) Selected strain of Italian Sprouting Broccoli. Center heads are large and mature earlier than regular Calabrese strain	1 10	3 40	12 00
CALABRESE (Italian Sprouting). Adapted for either early or late planting	Sold Out		
EARLY GREEN SUMMER. Matures earlier than Calabrese	90	2 75	10 00
DI RAPA. Early. For spring sowing, should be cut before yellow blossoms appear	30	90	2 75
DI RAPA. Late. For fall sowing to winter over	30	90	2 75

BRUSSELS SPROUTS *4 ounces per acre*

HALF-DWARF SPECIAL. An extra-selected stock. Recommended to growers looking for fancy stock	2 00	6 00	20 00
L. I. HALF-DWARF. Sprouts solid and of excellent flavor	45	1 35	4 00

CABBAGE *4 ounces per acre*

ALL-HEAD EARLY. Good second-early sort. Deep, flat heads of solid, uniform shape	65	1 90	6 00
ALL SEASONS. Suitable for midseason and early fall crop	65	1 90	6 00
AMERICAN SAVOY IMPROVED. Especially fine strain. Large heads, of dark green color, compact, and finely curled. This strain has proved very popular with our market gardener customers	80	2 75	10 00
BUGNER. (Yellows-resistant.) Heads flattish round, solid. Good keeper	75	2 25	8 00
CHARLESTON WAKEFIELD. The heads are uniform in size and shape and mature evenly	65	1 90	6 00

CABBAGE, continued

	Oz.	¼lb.	1 lb.
COPENHAGEN MARKET. A desirable early, round-headed variety. Compact, short-stemmed plants maturing about 10 days later than Eberle's Peerless Special	\$1 00	\$3 00	\$9 00
DANISH BALLHEAD. Short-stemmed strain. Deep, round solid heads. Most popular for storage purposes	70	2 10	7 50
EBERLE'S PEERLESS SPECIAL. Our leading extra-early Cabbage. This improved strain is the earliest of round-headed varieties. The heads are very solid and uniform in size, averaging 6 to 8 pounds in weight, and of remarkably fine quality. The compact, short-stemmed plants permit close planting. This is a favorite with critical market gardeners	1 10	3 40	12 00
GLOBE YELLOWS-RESISTANT. A strain similar in type to Glory of Enkhuizen Cabbage, but resistant to yellows disease	75	2 25	8 00
GLORY OF ENKHUIZEN. This is a popular round-headed main-crop variety. The heads are solid, averaging from 6 to 8 pounds	65	1 90	6 00
GOLDEN ACRE. Especially valuable for early planting. Round heads uniform in shape and size	1 10	3 40	12 00
HACO RED. Superior, early, short-stemmed, deep red, solid heads. Weigh 3 to 4 pounds	1 00	3 00	9 00
MAMMOTH ROCK RED. Large, deep, solid, flat heads. The best of the large-type red Cabbages	1 00	3 00	9 00
MARION MARKET. A yellows-resistant strain developed from Copenhagen Market	1 00	3 00	9 00
PEERLESS. This strain matures a few days earlier than Copenhagen Market	1 10	3 40	12 00
PEERLESS YELLOWS-RESISTANT. This is a similar Cabbage to Peerless but resistant to yellows disease	1 10	3 40	12 00
PENN STATE BALLHEAD. One of the heaviest of the Danish Ballhead type. Retains green color longer than most late Cabbages	75	2 25	8 00
SUCCESSION. A standard variety for midseason and early fall crop	55	1 60	5 00
TRUCKERS' FAVORITE. A distinct variety resembling Danish Ballhead, but larger and heavier. Recommended for shipping and storing over winter	70	2 10	7 50
WISCONSIN NO. 8. (Yellows-resistant.) Recommended for late crop. Good keeping quality. Large, firm, globular heads. Average weight 7 to 9 pounds	70	2 10	7 50

CHINESE CABBAGE *2 to 3 pounds per acre*

CHIHILI. Long, cylindrical, compact heads, very solid and excellent quality. Most popular market sort.	50	1 50	4 50
PE-TSAI. Resembles Cos Lettuce in form. Not so compact as Chihli. Has stronger Cabbage flavor	50	1 50	4 50
WONG BOK. Grows a dwarf, broad, firm head. Later in maturing than Pe-Tsai or Chihli	50	1 50	4 50

CARDOON

LARGE SMOOTH	45	1 35	4 00
-------------------------------	----	------	------

CARROT *3 to 4 pounds per acre*

	¼lb.	1 lb. or more per lb.	10 lbs. or more per lb.
CHANTENAY, LONG TYPE. Since being introduced, has taken first place among early bunching Carrots. Slimmer at shoulder than regular Chantenay; almost coreless; 6½ inches long. Good deep-colored skin and the fine-grained tender flesh, with delicate flavor, makes it very popular in markets. Does well either on muck or upland soils.	\$1 15	\$3 60	\$3 50
CHANTENAY, RED-CORED. Shape and length are similar to Chantenay. When cut the small core is deeper colored. Roots are smooth and stump-rooted	1 15	3 60	3 50
CORELESS LONG RED. Does well on muck soil. Smooth, deep orange-colored roots	1 20	3 75	3 65
DANVERS HALF-LONG. This might be called a standard variety. Popular with market gardeners in many states. Has good bunching top. Roots grow about 7 inches long, tapering uniformly to the blunt end	1 00	3 00	2 90
EBERLE'S NO. 308. On deep, light soils this strain excels. Roots are cylindrical, stump-rooted, grow longer than Coreless. Both outside and inside color is deep orange color		Sold Out	
HUTCHINSON. A long deep orange-colored variety with strong top. Excellent for bunching	1 00	3 00	2 90
IMPERATOR. Extensively grown in California. A long slender Carrot well adapted to bunching. The roots are about 8½ inches long, tapering to a semi-blunt end. Color deep orange	1 10	3 35	3 25

CARROT, continued

	$\frac{1}{4}$ lb.	1 lb. or more per lb.	10 lbs. or more per lb.
INTERMEDIATE. An excellent main-crop variety with smooth orange roots measuring 10 to 11 inches. Uniform in shape, about $2\frac{1}{2}$ inches diameter at shoulder, tapering to a point	\$1 00	\$3 00	\$2 90
MORSE'S BUNCHING. The roots are almost cylindrical with rounded shoulders. Recommended where a longer bunching Carrot is required	1 10	3 50	3 40
NANTES HALF-LONG STUMP-ROOTED. This variety is largely used on muck soils. Tops medium. Roots deep reddish orange, about 7 inches long, cylindrical, stump-rooted, and coreless	1 20	3 75	3 65
PERFECTION. A most desirable Carrot for bunching. Roots about 8 inches long, cylindrical, very smooth and almost coreless. Color deep orange	1 05	3 35	3 25
TENDERSWEET. A long slender Carrot, excellent for bunching. Color deep orange; very sweet and tender	1 10	3 50	3 40
RELIANCE. We consider this one of the best strains of bunching Carrots. Skin bright color; flesh rich orange; shape very attractive, about 7 inches long, and shows up well when packed for market. Does equally well on muck or upland soils	1 10	3 50	3 40

CAULIFLOWER *6 to 8 ounces per acre*

	Oz.	$\frac{1}{4}$ lb.	1 lb.
DWARF ERFURT. A desirable strain for late crop. It is of a dwarf, compact habit, with erect, dark green, pointed leaves growing closely about the flower. The snow-white heads of even surface are large, heavy, close-grained, and of an attractive appearance when prepared for market	\$5 00	\$16 00	\$55 00
EBERLE'S SPECIAL CAULIFLOWER. One of the best for early and late planting. The heads are large and deep, snow-white, compact, solid and fine-grained and do not become "ricy" so easily as other sorts, even under the most unfavorable weather conditions. The plants are compact and well suited to close culture, while the large-sized leaves give exceptional protection to the heads. A number of our customers have been known to cut 800 crates of number one Cauliflower per acre. In our trials, this variety proved to be a most remarkable sort, therefore we do not hesitate to recommend it to the most critical grower	6 00	17 50	60 00
PREMIER. An excellent new variety well suited for fall planting. Matures about one week earlier than Snowball. The heads are large, deep, and compact, and are well protected by ample foliage	5 00	16 00	55 00
SELECTED SNOWBALL. This variety is more extensively grown than any other sort. Well adapted for late summer and fall-crop planting. Has ample leaves to protect the heads from sun and frost. The heads are solid, compact, round, very white, and curdlike. They measure 9 to 10 inches across and have a depth in proportion. The strain we offer is one of the finest of the Snowball type	5 00	16 00	55 00
SUPER SNOWBALL No. 100. An early variety of Snowball suitable for early and late culture, maturing about 10 days earlier than Erfurt. The heads are large, deep, solid and compact	6 00	17 50	60 00
WHITE MOUNTAIN. A Snowball type that is very hardy. The heads are white, very solid and compact, while the plant is very robust, with ample foliage to protect the heads from the sun. It matures slightly earlier than Snowball and is a desirable sort for late planting	5 00	16 00	55 00
DANISH GIANT or DRY WEATHER. A large, late variety, well adapted to withstand long dry seasons. The plants being of a robust habit give greater protection to the heads which are very solid, pure white	5 00	16 00	55 00

CELERY *4 ounces per acre*

EASY-BLANCHING. This is a pale green, early Celery. The plants are of medium height, vigorous, and not so susceptible to blight, while the stalks are broad, crisp, and tender. It has a very full heart which bleaches readily to a golden yellow color. Suitable for both muck and upland culture	1 50	5 00	18 00
EBERLE'S WONDERFUL. A distinct and valuable early variety. The plants are semi-dwarf, very vigorous, and are not so susceptible to blight and other Celery diseases. It has a very full heart which bleaches quickly to a beautiful golden yellow color. In quality it is surpassed by none, and its handsome appearance commands a ready sale in any market. It is all the name implies—Wonderful	1 25	4 20	15 00
GOLDEN SELF-BLANCHING. (Tall.) This new strain is in every way similar to the well-known Golden Self-blanching, but is a more vigorous grower, earlier, taller and not so susceptible to blight.	1 00	3 40	12 00

CELERY, continued

PARAGON CELERY. A very desirable green Celery for late planting. It is a robust grower, semi-dwarf, is quite free from blight, and has a full heart which bleaches easily to a creamy yellow. The stalks are broad, solid, crisp, free from stringiness and of a fine nutty flavor. An excellent sort for storing for winter use	Oz. \$2 00	¼lb. \$6 75	1 lb. \$25 00
SUMMER PASCAL. A green variety of excellent quality. Plants are compact and grow about 16 inches tall. Stalks round, smooth, and have a glossy sheen.	2 00	6 00	20 00
TRIUMPH. A Celery of exceptional merit. The plant is dwarf, vigorous, quite hardy, and has a very full heart. Stalks pale green, broad, quite thick, very solid, crisp and tender, bleaching readily to a golden yellow color. Highly recommended for an early or late crop	2 00	7 25	27 00
WONDERFUL SPECIAL. This strain is taller and longer jointed than Wonderful Celery; we recommend it for early transplanting. The very full heart bleaches quickly to a lovely golden yellow color	2 00	6 00	20 00
SOUP. The tops are cut and used for flavoring soups	15	45	1 35

CELERIAC

LARGE SMOOTH PRAGUE. Turnip-rooted Celery	45	1 35	4 00
--	----	------	------

CHICORY *4 pounds per acre*

CATALOGNA. Dark green, narrow serrated leaves mostly used as greens	45	1 35	4 00
NEAPOLITAN. A hardy variety with serrated leaves, used as greens	Sold Out		
SAINT PASQUALE. Used as greens.	Sold Out		
WITLOOF or LARGE-ROOTED. Smooth roots 8 to 10 inches long. In fall roots are transplanted and forced for French Endive; also used as greens	40	1 25	3 75

COLLARDS

Somewhat similar to Cabbage, but does not form a head	Oz. \$0 20	¼lb. \$0 50	1 lb. \$1 60	10 or more per lb. \$1 50
---	---------------	----------------	-----------------	---------------------------------

CORN SALAD

A substitute for lettuce	1 00	3 00
------------------------------------	------	------

CORN (Sweet) *15 pounds per acre*

EBERLE'S PERFECTION. An excellent second-early white variety. The stalks are about 6 feet, very prolific, yielding from 1 to 2 very large ears which are covered with drooping leaves giving it a most handsome appearance. 12-rowed and of good quality	1 lb. or more per lb. \$0 30	10 lbs. or more per lb. \$0 23	15 lbs. or more per lb. \$0 21	25 lbs. or more per lb. \$0 20	50 lbs. or more per lb. \$0 19	100 lbs. or more per lb. \$0 18	500 lbs. or more per lb. \$0 16
GOLDEN BANTAM. One of the sweetest of the yellow Corns	30	23	21	20	19	18	16
GOLDEN CROSS BANTAM HYBRID. The best of the Hybrid Corns, replacing many maincrop varieties. Ears 10 to 14-rowed. Excellent quality	40	35	33	32	31	30	28
GOLDEN EARLY MARKET. One of the best of the extra-early sorts, producing large, well-filled ears which are 10 to 12-rowed. Stalks about 4½ feet	30	23	21	20	19	18	16
GOLDEN EVERGREEN. Produces large-sized, 12 and 14-rowed ears, with deep grains of a most delicious flavor. Stalks about 7 feet	30	23	21	20	19	18	16
GOLDEN SUNSHINE. About 10 days earlier than Golden Bantam. Ears 10 to 12-rowed. Stalks average about 4 feet	30	23	21	20	19	18	16
LATE MAMMOTH. The largest late variety grown, producing immense 14 and 16-rowed ears which are well filled with large white, tender grains of a decided sugary flavor. Stalks about 9 feet	30	23	21	20	19	18	16
LONG ISLAND BEAUTY. A large late white variety. The ears often measure 12 inches long, with 16 rows of sweet sugary grain. Stalks about 8 feet	30	23	21	20	19	18	16
MARCROSS 39 HYBRID. An early yellow-top cross variety. Stalks about 6 feet, producing 12 to 14-rowed ears of delicious flavor. Suitable for market gardeners	40	35	33	32	31	30	28
MARCROSS 6-13. This new variety has large uniform ears which mature about two days later than Golden Early Market. Stalks 4 to 5 feet and very productive.	45	38	36	35	34	33	31

CORN (Sweet), continued

STOWELL'S EVERGREEN. A late white-grained variety producing large ears having 14 to 16 rows of very deep sweet grain. Stalks about 7 feet	1 lb. or more per lb.	10 lbs. or more per lb.	15 lbs. or more per lb.	25 lbs. or more per lb.	50 lbs. or more per lb.	100 lbs. or more per lb.	500 lbs. or more per lb.
	\$0 30	\$0 23	\$0 21	\$0 20	\$0 19	\$0 18	\$0 16
WHIPCROSS P39 HYBRID. A large-eared yellow Corn. Ears 12 to 14-rowed, of good flavor. Stalks 7 feet	40	35	33	32	31	30	28
WHIPPLE'S EARLY YELLOW. A second-early variety producing large, well-filled ears which are 12 to 14-rowed. Stalks about 6 feet	30	23	21	20	19	18	16

CRESS

Curled. Leaves pungent. Used as salad	Oz.	¼ lb.	1 lb.	Upland. Used as salad	Sold Out
	\$0 30	\$0 80	\$2 50	Water. Used as salad	Sold Out

CUCUMBER 3 pounds per acre

DAVIS' PERFECT. This long smooth handsome white-spined Cucumber is extensively used. The vines are very productive, fruits very uniform and of deep green color. Suitable for forcing and outdoor culture	¼ lb.	1 lb. or more per lb.	10 lbs. or more per lb.	25 lbs. or more per lb.
	\$0 50	\$1 50	\$1 40	\$1 30
EARLY FORTUNE. An exceedingly early, prolific and attractive dark green white-spined variety	50	1 50	1 40	1 30
EARLY GREEN PROLIFIC. A very productive pickling sort	50	1 50	1 40	1 30
EXTRA-EARLY DARK GREEN WHITE SPINE. An extremely early variety. The vines are vigorous, very healthy, and produce a large crop of uniform and symmetrical-shaped fruits of an attractive dark green color	50	1 50	1 40	1 30
HYBRID. A very productive dark green Cucumber. An excellent sort for shipping	50	1 50	1 40	1 30
LONGFELLOW. An attractive intense dark green sort, well adapted to greenhouse forcing, frame or outdoor culture. The long, slender, straight, smooth fruits always command top price in the market, measuring about 12 to 14 inches long, and remain in prime condition for a longer period than any other variety. Resistant to cucumber and other diseases	70	2 10	2 00	1 90
LONG GREEN IMPROVED. Standard late sort, largely used for dill pickles	50	1 50	1 40	1 30
NATIONAL PICKLING. The best pickling variety, producing fruits more uniform in shape and size than any other sort. The fruits are dark green, cylindrical in shape and blunt at both ends	50	1 50	1 40	1 30
No. 500. A most desirable sort. The vines are vigorous and very prolific. Fruits very dark green and unusually uniform, measuring about 12 inches	75	2 30	2 20	2 10
SNOW'S PICKLING. One of the best varieties for pickling. The early-maturing, uniform-sized fruits are short, square-ended and of a rich deep green color. Very prolific	50	1 50	1 40	1 30

DANDELION 4 to 5 pounds per acre

THICK-LEAVED IMPROVED. A very early, large, thick-leaved variety, superior to the common sorts	2 00	6 00	5 80
---	------	------	------

DILL 5 pounds per acre

MAMMOTH. An improved strain, taller and more productive than the common sort	55	1 60	1 50	1 40
---	----	------	------	------

EGGPLANT 4 ounces per acre

BLACK BEAUTY. A very desirable variety. The fruits are large, entirely spineless, and have an attractive dark purple skin. Very prolific	Oz.	¼ lb.	1 lb.
	\$0 65	\$1 90	\$6 00
NEW YORK SPINELESS. Large, dark purple fruits of fine quality	65	1 90	6 00
EARLY LONG PURPLE. This is an early variety, very productive. The fruits are club-shaped and of a rich purple color	65	1 90	6 00
BLACK BEAUTY SPECIAL. An improved strain of Black Beauty. The fruits are smooth, black-purple, and large. Plants are robust and very productive	70	2 00	7 00

ENDIVE *3 to 4 pounds per acre*

BATAVIAN FULL HEART (Escarolle). One of the best sorts for general use. The large heads are deep rosettes, and often measure 16 inches in diameter. The inner leaves bleach readily to a crisp creamy yellow color

	Oz.	¼lb.	1 lb.
	\$0 25	\$0 70	\$2 00

LARGE CURLED SPECIAL. A large-framed vigorous variety. The bright green outer leaves are finely curled; the inner leaves form a compact center that bleaches creamy yellow

	25	70	2 00
--	----	----	------

FENNEL *3 pounds per acre*

FLORENCE. One of the best sorts. Has large, bulb-like, oval base

	¼lb.	1 lb. or more per lb.	10 lbs. or more per lb.	25 lbs. or more per lb.
	\$1 00	\$3 50	\$3 40	\$3 30

MESSINA. Not so tall as Florence. May be sown earlier. The base is more round but not so large

ALASKA. An extremely early variety of good quality. Height, 2½ feet	\$0 30	\$0 23	\$0 21	\$0 20	\$0 19	\$0 18	\$0 17
EBERLE'S DEFIANCE. A second-early variety. The vines are vigorous and produce an abundance of large pods, filled with immense Peas of excellent quality. This variety ripens immediately after the extra-early sorts. Height, 1½ feet	30	25	23	22	21	20	19
GRADUS or PROSPERITY. Early wrinkled Peas of fine quality. Height, 2½ feet	30	25	23	22	21	20	19
HUNDREDFOLD. An early, dwarf, large-podded variety. Height, about 2 feet	30	25	23	22	21	20	19
LAXTONIAN. One of the earliest of the large-podded dwarf Peas. Height, 2 feet	30	25	23	22	21	20	19
LAXTON'S PROGRESS. An early, large-podded dwarf variety. The vines are robust, producing an abundance of dark green pods which are very attractive and contain 8 to 10 large Peas of excellent quality. Height, 1½ feet	30	25	23	22	21	20	19
LITTLE MARVEL. An extra-early dwarf sort. Pods blunt, dark green, well filled with Peas of fine quality. Height, 1½ feet	30	25	23	22	21	20	19
PRINCE EDWARD. A late main-crop variety. The vines are very productive; pods are large and well filled with delicious Peas. Height, about 4 feet	30	25	23	22	21	20	19
TELEPHONE. A well-known main-crop Pea. Height, about 4 feet	30	25	23	22	21	20	19
THOMAS LAXTON. This superb early sort is noted for its exquisite flavor. The large dark green pods with blunt ends are well filled with 7 or 8 large Peas of unsurpassed quality. Vines dark green, robust and very productive. Height, 3 feet	30	25	23	22	21	20	19
WORLD'S RECORD. An excellent sort for early planting. The vines are vigorous and produce an immense crop of well-filled dark green pods usually containing 10 Peas of exceptional quality. Height, 2½ feet	30	25	23	22	21	20	19

PEPPER

4 to 6 ounces to transplant an acre

	Oz.	¼lb.	1 lb.
CALIFORNIA WONDER. A large, heavy, smooth Pepper of dark green color. Surpasses all others for thickness of flesh and handsome appearance	\$0 70	\$2 10	\$7 50
CAYENNE—LONG THICK. This strain is a great improvement on the ordinary variety, being longer and much thicker in the flesh and type of pod. Pungent	55	1 60	5 00
CAYENNE—LONG THIN. A long slender variety bright red in color when ripe. Very pungent	50	1 50	4 50
EARLY GIANT. Recommended for early crop. Large and sweet	55	1 60	5 00
HUNGARIAN—LONG YELLOW. An improved strain, producing bright yellow fruits 6 to 7 inches long; when ripe they turn deep crimson. Very prolific. Pungent	90	2 75	10 00
LARGE CHERRY RED. Cherry-shaped fruits considerably larger than the common Red Cherry. Extremely pungent and of a bright red color when ripe	55	1 60	5 00
NEAPOLITAN. Elongated fruits of upright growth, about 4 inches long, very early, mild, and sweet flavored	55	1 60	5 00
OSHKOSH. A medium-early deep green Pepper turning to canary-yellow when ripe. Thick walls and mild flavor	70	2 00	7 00
RUBY KING SPECIAL. One of the best main-crop varieties. The pendent fruits are very attractive and average 5 to 6 inches in length, with 4-inch diameter at stem end. The flesh is thick and of mild and pleasant flavor. Plants are very productive, yielding large fruits which are uniformly regular in size and shape. Well suited for stuffed Peppers	55	1 60	5 00
SQUASH or CHEESE. Flat tomato shape, slightly corrugated	65	1 90	6 00
SUNNYBROOK. Fruits are tomato shape, borne upright. Color deep green, turning red when ripe; flesh thick and mild	65	1 90	6 00

PEPPER, continued

SURPRISE. A new Pepper of outstanding merit, somewhat similar to California Wonder. The plants are dwarf, vigorous, and produce an abundance of large, thick-fleshed, pendent fruits, which are sweet and mild, medium early, and very uniform. The color is a deep green changing to a bright scarlet when ripe. In our trials this Pepper has proved to be the most prolific of the large-type varieties.

	Oz.	¼lb.	1 lb.
We do not hesitate to recommend this to the most critical grower	\$0 75	\$2 25	\$8 00

GARDEN AND FARM IMPLEMENTS

No. 12 Planet Jr. Double and Single Wheel Hoe Combined

This Double Wheel Hoe is complete in each detail, equipped with the most useful set of attachments and adapted to many kinds of work. Price, with side hoes only, \$9.50; complete with attachments, \$12.95.

No. 13 Planet Jr. Double and Single Wheel Hoe Combined

Just the tool for a small gardener. Very light and easy running, on account of the high wheels. The great advantage of this Double Wheel Hoe is that it can be made into a practical

Single Wheel Hoe. An attachment for sowing seed in drills, which fits on this tool, can also be had. Price, \$9.95.

No. 17 Planet Jr. Single Wheel Hoe

A first-rate Single Wheel Hoe, sufficient for most garden work; you can do more and better work with it in one day than you can do in several days with a hand hoe. Price, complete, \$8.95

No. 17 1/2 Planet Jr. Single Wheel Hoe

Very light and easy running, on account of the high wheel; used very extensively by large growers of beets, onions and other market crops, where thorough and rapid work is essential. Price, complete, \$7.95.

No. 3 Planet Jr. Hill and Drill Seeder

The No. 3 Planet Jr. Seeder only is a popular size at a moderate price. We recommend customers to buy separate seed drills and wheel hoes where they have enough work to warrant it. The steel driving wheel is of proper height, with broad face, making the tool light and easy running. The special force feed is admirable, working equally well whether sowing with an ounce or a full hopper. The hill dropping is simple and reliable, spacing hills either 4, 6, 8, 12 or 24 inches apart. From hill to drill—this change is made or reversed almost instantly. Price, \$19.75.

No. 300 Planet Jr. Seeder

This Seeder is accurate, simple, durable, reliable and easy running, doing first-class work in every particular. Price, \$22.75.

Fire Fly Garden Plow

This tool is exceedingly useful to owners of small gardens. It will throw a furrow 4 to 6 inches wide and 1 to 3 inches deep, and deeper by going a second time in each furrow. It opens furrows for manure or seeds and covers them, and opens up rows for all kinds of plant-setting. In cultivating, plow away lightly. Price, \$4.95.

Here are good tools which insure good work

GARDEN AND FARM IMPLEMENTS, continued

No. 82 Planet Jr. Seven-Tooth Horse Hoe and Cultivator Combined

Packed weight, 76 lbs.

Equipment.—Seven $2\frac{1}{4}$ x 8-in. cult. steels. One pair 6-in. side steels. One 7-in. shovel steel. Lever expander.

This is a new machine which is bound to be popular. It has all the advantages of our No. 9 Horse Hoe with its reversible side standards which can be turned any angle desired. The seven teeth insure fine and thorough cultivation. The machine will take all the extra attachments which fit our Nos. 7, 8 and 9 Horse Hoes, and the whole combination is one which is invaluable for hoeing, hilling or cultivating. Price, \$17.25.

No. 91 Planet Jr. Twelve-Tooth Harrow Cultivator

This tool has rapidly grown in favor with truckers and farmers. This is because the soil can frequently be cultivated without hilling, leaving the ground in the finest condition. For ground which is full of stones or gravel this tool is very useful, doing the work very competently and rapidly. It can be expanded to 32 inches and contracts to 12 inches. Price, \$13.95.

No. 9 Planet Jr. Horse Hoe

This tool has rapidly grown in favor with market gardeners and farmers. It is strong and light, has patent handle braces which are rigid, yet do not interfere with opening and closing, nor with the side adjustment of the handles. The patent handle adjustment is very complete; up or down for height, and a very important side adjustment. It holds the handles either central or to one side, as desired. Thus, in covering, the operator need not walk on the finished work; and in vineyards and among blackberries, raspberries, etc., he may work close without scratching his hands or having the handles break down the crop. Price, \$15.50.

No. 220 Planet Jr. Fertilizer Distributor

The simplicity, efficiency, and long-wearing qualities of this Fertilizer Distributor will appeal to everyone. It will distribute fertilizer on the ground to any desired width from 4 to 30 inches, or in the middle of three rows 12 to 14 inches apart and can also be used in 42- to 48-inch rows by closing off the flow in three spouts and distributing through the others, either on the right or left-hand side. The hopper capacity is one bushel and the weight of the load is placed over the wheel, making it easy to push. Quantity per acre is regulated by a notched index on the right-hand handle and the shut-off rod is operated from the same point. Price, \$31.50.

Garden Barrows

A neat, well-made, and durable class of Wheelbarrows. They are superior to the type generally offered, as none but the best material is used in their construction by experienced and skilled workmen.

No. 1. Garden and Farm Wheelbarrow. Made from seasoned hardwood, painted red. Size of body, 30 inches long, 24 inches wide, and sideboards 12 inches high. Strong, neat, and durable. Price, \$11.50.

No. 2. Similar in style to the above, only smaller. Size of body, 28 inches long, 20 inches wide in front, 24 inches wide at back, sideboards 12 inches high. Price, \$9.

GARDEN AND FARM IMPLEMENTS, continued

Wiard Steel Swivel Plow

This is one of the finest Swivel Plows ever produced. The beam is of the highest grade forged steel and stronger than any other beam made. It is adjusted so that the Plow works perfectly; will reverse either way, and can be used for side hill or level land, without leaving dead furrows and ridges.

No. 120. Light two-horse. All steel, \$35.25.

No. 115X. Light two-horse. Chilled, \$29.25.

The No. 115X is an all-chilled Plow and is made to meet the demand where a lower-priced Plow is wanted.

Wiard Steel Beam Plow

This series of Plows is the acme of perfection in Plow construction. They are made from the best material obtainable and the shape of the mouldboards is such as to adapt

them to use in all soils. They are easy to handle and operate, and very light draft.

No. 43, 2-horse Chilled Mouldboard. Price, \$26.50; if steel mouldboard is wanted, add \$2 to above price.

Wiard Steel Beam Plow

No. 72. A light, two-horse Plow which has proved popular and is a model of its kind. It is light in draft and so balanced that it can be easily handled. The mouldboard has superior turning qualities and is adapted to all conditions of soil. Price, \$26.75; if steel mouldboard is wanted, add \$2 to above price.

No. 10 One-Horse Plow

This Plow is designed for general garden and vineyard purposes. The handles can be shifted from left to right, permitting close plowing to trees and under grape-trellis wire. Has chilled mouldboard, and adjustable beam so that the horse can walk in the furrow or on the land. Price, plain, \$14; complete with wheel and jointer, \$19.50.

Wiard Subsoil or Ditching Plow

A strong and serviceable right-hand, subsoil Plow, intended to follow in the furrow of the turning Plow and to loosen the soil in the bottom of the furrow from 3 to 6 inches deep. This Plow is furnished with plain point only. It is being used by some of our best practical farmers, and is especially adapted for use in the culture of crops, where deep cultivation gives the best results. For ditching purposes it has no equal. Price, \$23.

GARDEN AND FARM IMPLEMENTS, continued

Disc Harrow with Fore Truck

This Harrow contains all features of any importance in a Disc Harrow, and includes many advantages and conveniences for the cheap and successful use of such an implement. The gauge can be placed at any angle, and it has adjustable cleaners, which can be removed if desired. The Fore Truck has a universal attachment, and can be fitted to and used on other makes of Harrows that have a short wood pole. The whiffletrees are attached to the clevis on the Fore Truck, avoiding the possibility of any weight or bearing down on the horses' necks. The Truck can be raised or lowered and works on a swivel so that short turns can be made. It is strongly constructed with most durable bearings and easily operated. Price, with 18-in. disc, and Fore Truck, \$72; with 18-in. disc, and Long Pole, \$63.

Spike Tooth Lever Harrow

This Harrow is one of the best on the market. The frame is made of I and U bar steel, which makes it very strong. The triangular tooth has three sharp edges to be used in succession. It stirs more soil than any other, and having a broad, flat face, is held more firmly against the tooth bar. The teeth are headed and cannot drop out should they become loose. The tooth bars do not project beyond the frame, which prevents it from barking your trees. Price, 30 teeth, 1 section, \$15; 60 teeth, 2 sections, \$26.

The Meeker Smoothing Harrow

A splendid Harrow to prepare the soil for sowing small seeds. It has four sets of rollers containing 46, 58 and 82 discs, depending upon the size, the discs being set so as to overlay or meet. The use of a Meeker Harrow saves the work of raking, and does the work of a dozen men. The board in the center, set at an angle, can be adjusted up and down and serves as a leveler.

4-ft. 6-in. x 4-ft. Harrow with 8-in. discs\$40 00
6-ft. 8-in. x 6-ft. Harrow with 8-in. discs 47 00
6-ft. 8-in. x 6-ft. Harrow with 10-in. discs 50 00
8-ft. 8-in. x 8-ft. Harrow with 10-in. discs 70 00

Walking Weeder

No. 8. This one-horse Weeder is 7½ feet wide, with 38 oil-tempered teeth, and is especially serviceable for spring crops; also used on grain-field when hard or dry. Using a Weeder early not only kills the weeds, but also scarifies the surface, leaving a mulch, thus preventing formation of a crust or baking of the surface. The teeth may be respaced, not removed, and thorough and perfect work can be done by using all the teeth to cultivate the crops in rows until plants are quite tall. When teeth are spaced at regular distances, no open spaces are left and ground is thoroughly cultivated. Price, \$15.

GARDEN AND FARM IMPLEMENTS, continued

Cyclone Seeder

We highly recommend this to anyone desiring a convenient machine; practical and an all-round first-class grain and grass Seeder.

It is easily operated and will distribute any desired quantity of seed per acre. The slope-feed board gives the seed a gravity flow and keeps the hopper outlet properly filled without tilting the machine. An automatic feed adjustment furnishes a positive force feed and is quickly adjusted for sowing the different varieties of seed. Price, \$2.50.

Broadcast Fertilizer Sower

This Fertilizer Sower combines simplicity, strength and durability and has no superior for sowing all kinds of commercial fertilizers broadcast or in rows. It has a reel which runs the full length of the hopper and keeps the fertilizer in motion so that it is forced through the openings in the bottom plates. This kind of opening, it has been found, is the only pattern that will sow successfully all kinds of commercial fertilizers in large or small quantities. Price, \$60.

Garden and Farm Three-Row Marker

A valuable tool where an even and uniform mark is required. It is of light draft and can be adjusted to width and depth as desired. The runners are sufficiently long to insure even running and, consequently, straight rows. Best-quality steel wings, shaped to open a large furrow and at the same time pulverize the soil for seed-bed. The wings are bolted on to the runners and may easily be replaced when worn. Price, \$22.

Hand Corn Planter

This Planter works automatically and is very accurate. It can be adjusted to plant the required depth. Price, \$3.50.

Hotbed Mats

Burlap-lined; waste wool and cotton quilted; frost-proof. Size 76 x 84 in. \$2.75 each, \$30 per doz.

Turf Edger

An excellent tool for trimming the turf around borders, etc. Has 9-inch polished steel blade, reinforced with double steel brace forming foot-rest. Price, \$1.50.

Darnell's Marker and Coverer

This tool can be used for marking out furrowing, covering or ridging all kinds of row crops. It can be adjusted to open two furrows at once or it will make one double furrow or ridge up both sides of a row at one operation. The runners are constructed to make a perfect seed-bed and prevent sliding on side-hills. The revolving discs cut their way straight through without hindrance or clogging. Unequaled as a time-saver and does the finest kind of work. Price, \$30.

Frederick W. Eberle gives no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds, bulbs or plants he sells, and he will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned. When mentioned, purity and germination tests are for information only and without guarantee.
